Project: Minority AIDS Initiative-Management Reporting Tools (MAI-MRTs)--(OMB No. 0930-0357)--Revision

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) is requesting from the Office of Management and Budget (OMB) approval for the revised Minority AIDS Initiative (MAI) monitoring tools, which includes both youth and adult questionnaires as well as the quarterly progress report. This renewal includes the inclusion of new cohorts.

The cohorts of grantees funded by the MAI and included in this clearance request are:

- Capacity Building Initiative 2017
- Capacity Building Initiative 2018
- Prevention Navigators 2017
- Prevention Navigators 2019
- Prevention Navigators 2020

- Prevention Navigators 2021

The target population for the MAI grantees will be at-risk minority adolescents and young adults. All MAI grantees are expected to report their monitoring data using SAMHSA's Strategic Prevention Framework (SPF) to target minority populations, as well as other high-risk groups residing in communities of color with high prevalence of Substance Abuse and HIV/AIDS. The primary objectives of the monitoring tools include:

- Assess the success of the MAI in reducing risk factors and increasing protective factors associated with the transmission of the Human Immunodeficiency Virus (HIV), Hepatitis C Virus (HCV), and other sexually transmitted diseases (STD).
- Measure the effectiveness of evidence-based programs and infrastructure development activities such as: outreach and training, mobilization of key stakeholders, substance abuse and HIV/AIDS counseling and education, testing, referrals to appropriate medical treatment and/or other intervention strategies (i.e., cultural enrichment activities, educational and vocational resources, social marketing campaigns, and computer-based curricula).
- Investigate intervention types and features that yield the best outcomes for specific population groups.
- Assess the extent to which access to health care was enhanced for population groups and individuals vulnerable to behavioral health disparities residing in communities targeted by funded interventions.
- Assess the process of adopting and implementing the SPF with the target populations.
